- Tools: VSCode, Vim, Jira, Git, Trello

INTERESTS & HOBBIES

Travel: I enjoy planning, visiting and experiencing new places annually.

Sport: I play in a semi-pro AFL league, I also enjoy social sports such as six-a-side soccer and mixed netball.

Board games & puzzles: I regularly play chess, as well as cooperative board games such as Pandemic, Atlantis Rising, and Eldritch Horror. Puzzles that I love doing include Sudoku, jigsaw puzzles, and Tetris.

Jordan Saker

JUNIOR WEB DEVELOPER

Motivated, team-orientated web developer who enjoys learning and always looking for ways to improve. Seeking a position that will enable me to grow as a developer, and to use my ability to work well with people.

I have a keen interest in Back-end development but I'm versatile enough to be able to adapt to Front-end application development. Able to work through and solve problems and enjoy using that ability when coding.

KEY PROJECTS

Harvard Reference Generator for Markdown

<https://github.com/jordansaker/TerminalAppT1A3>

- Features reference and citation insertion into markdown file. Website, book, journal, and video reference types.
- Made with Python.

Loan Select Cairns

<https://loanselect-website.vercel.app/>

- Redesigned the website layout, fully responsive, using Wordpress Restful API to make the website News page content editable via a dashboard.
- Used HTML, CSS, Javascript, Wordpress API.

EXPERIENCE

Farmhand, Lakeshore Pty Ltd — March 2023 - present

- Working on herbicide, insecticide and fertilisation spray management on orchard trees during the picking and flowering seasons.

Orchard - General Hand, Rivera Farm Management Pty Ltd — February 2020 - January 2023

- Supervised and trained external labour hire, working in areas of land development (planting new blocks) for the orchard, general orchard maintenance, and fruit picking.
- Supervisory role involved managing up to 30 people during picking season, and as little as 12 during the quieter months. The role required me to report to the Orchard Manager, as well as the Area Manager during the picking season.
- Helped to improve efficiency while keeping expenditure the same in land development, allowing for an average of 3.5 ha to be developed a day with a team of no more than 12 people.
- Maintained and troubleshooted electronic systems of the orchard irrigation system. Installed Ag related sensors such as soil probes, temperature sensors, and dendrometers.
